1 Rue Victor-Cousin
Paris V^e, France

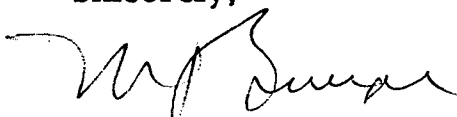

Dear Professor Guillemin:

There is now general agreement in our committee that there will be a meeting of delegates from various countries at Montreal (July 9 through July 19) to consider the formation of an International Mineralogical Association. Would you be good enough in your joint capacity as a corresponding member of the Mineralogical Society of America and as a member of the French Mineralogical Society to inform the French Mineralogical Society of this matter and invite them to send a delegate to this meeting.

I enclose another statement of the invitation which you may also send with your personal invitation.

With kindest regards.

Sincerely,

M. J. Buerger
